President's Report

Six of us were able to break the 15K rule and went to the Diamond Creek Rotary Tram on 2nd October, what a great day, and in such a beautiful setting. The tram café is nestled in amongst beautiful tree lined walking tracks, the diamond creek regional play space and the dog park and is behind the local football fields. Located at the end of the Hurstbridge line the refurbished W Class tram is amazing and well worth the drive, also the coffee is amazing. The morning was a bit drizzly but we had a steady stream of coffee drinkers coming by for a chat and a drink or a sneaky catch up with people as they were out and about. I am told the afternoon was a bit busier as the sun finally made an appearance. Great Saturday fun

The lift the lid walk for mental health 10th October (tomorrow as I am writing this on 9th) we are expecting approximately 9 Sunbury Rotarians and have invited another 7 people from locally who have brought tickets so I am hoping for decent weather.

Victoria breaks the record of most locked down city in the world topping 246 days under stay at home orders. We also had record 1965 new COVID cases on 9 October. Our hospitals are at breaking point, triage tents are being set up outside our hospitals and defence force personnel have been engaged to drive ambulances to help ease the strain on our health system. However there are still plans that once we reach 70% vaccination rate restrictions will ease. We are expected to reach 70% late October. Daniel Andrews was fined twice for not wearing a mask walking into the press conferences.State Government declared Vaccinations mandatory for select professions, two teachers are taking this legislation to the Supreme Court claiming it breaches their human rights.And in big news this fortnight Gladys Berejiklian NSW premier resigns in middle of corruption inquiry- who would have thought a politician can be corrupt. On to better stuff....

Our Guest speaker for last meeting was Fiona Demark.Fiona is an inspirational speaker and life coach who inspires positive change in people in both professional and personal life. Fiona is legally blind and has been so since birth, she believes that by meeting challenges head on and stepping outside her comfort zone she has built a resilience that she can share with others. She says no matter how much adversity in life there is always a silver lining.

Fiona spoke about her child hood in Broken Hill, moving to Sydney to study. How technology changed her life. She now works in Vic roads at a call centre. Fiona has written an eBook about overcoming adversity. Along with being a social worker she is a natural therapist and life coach. Wow, I think you went too far with the plastic surgery!

A huge stack of toilet rolls fell on me in the supermarket. I'm ok though, just soft tissue damage.

Hmmm, wonder why? 😏
